

Bain Maries

The BM23

The BM23 is a wet heat bain marie. The food does not have direct contact with the heat source, the element is fixed below the container, but is heated through contact with the hot water (90°C). This gives an even heat across the whole container. It will accommodate two 1/3GN containers up to 150mm deep. It is fully thermostatically controlled and is perfect for use in the smaller establishment.

Features heating indicator neon, , end on controls.

Weight	8kg
Dimensions (mm)	350 x 350 x 280
Power	1.7Kw – 13 amp plug
Shelf Area (mm)	2/3GN x 150mm deep
Temp C (min)	30
Temp C (max)	90
